Klaipeda State Musical Theatre (KVMT) is the largest professional performing arts institution not only in Klaipeda, but also in Western Lithuania. Its mission is to present musical performances and concert programs of the highest artistic level to the audience and guests of this region. The theatre's repertoire includes musical performances of various genres (operas, operettas, musicals, dance performances), symphonic and chamber music concerts, and performances for children.

The Palanga Orchestra began its activities in 1953 and today is one of the most professional wind orchestras in Lithuania. The orchestra plays an important role in shaping the cultural identity of the city of Palanga. The collective continues the long-standing traditions that were started during the time of the Counts Tiškevičius, when orchestral music concerts were held in Palanga at Birutė Park. The orchestra's program includes works of various musical styles, reflecting both classical and contemporary music.
